FOREWORD

For those of us researching HOUSTON, MACON, CRAWFORD, BIBB, UPSON, PULASKI, PEACH and surrounding counties, Deed Book G is a very helpful addition to my abstractions of Deed Books A, B, C, D, E & F. There are so many bits of info found in deed books other than the actual sale of a piece of property.

My main purpose for abstracting these deed books is to give me a beginning for the many families that I am tracing in Macon County. Since Macon County was partially formed from Houston County in 1837 and especially since the first 20 years of deed records of Macon County were lost in the courthouse fire in 1857, I need these to give me the location of my groups.

The purchase of land will very probably give us a clue as to where our families lived, where they attended church and where they were buried. There are MANY Family Cemeteries in Macon County. Some are recorded, others have been lost through the years and mentioned only in early deeds.

It has been my hope to show the "fortunate drawer" on each deed for that Lot and District. By doing this, I find that the first sale or transfer of all lots in not found (yet), thereby leaving me to guess that it was never recorded, recorded in the county where the original drawer lived or possibly transferred by a Will.

There is a list found in the Houston County Courthouse that shows each "fortunate drawer" and the actual date that the land was actually put in possession of this drawer. Sometimes it was as many as 10 or 15 years after 1821. Neither this list nor the Land Lottery Book of 1821 by Rev. Silas Emmett Lucas, Jr. shows fractional lots.

Fractional Lots are those bordering rivers and streams (including the Flint) and District lines boarding other counties in 1821 that did not contain the usual 202½ acres. In most of the early deeds we are given the acreage of the fractional lots.

In case of a note that I have added that is not actually in the deed, I have used brackets [] to indicate "my" additions.

Quotation marks " " are used to add any bits of info that are included in the deed that would not normally be abstracted but worth noting.

An underlined word or group of words could mean:

It is very special to my personal research.

It is illegible, a blank left for the info, found in a later portion of the deed and added.

If the drawer was located in one county at the time of drawing, but appeared in another county at the time of the sale. I wanted to call to your attention that this person had moved or possibly the county lines had been changed.

The abstractions in this book brings Houston County deeds past the beginning of Macon County in 1837. I have previously abstracted Deed Book "A" on Macon County 1857-1863 which contains many re-filed deeds that were lost in the fire. Hopefully I will soon be able to add other related counties.

INTRODUCTION

On behalf of the Central Georgia Genealogical Society and its Publication Committee, I wish to express our gratitude and appreciation to Mrs. Davine V. Campbell of Marshallville, Georgia for her contribution of abstractions of Houston County, Georgia Deed Book G. This book covers the period from 1836 to 1840 but many deeds date back to earlier years. This concludes her abstractions on Houston County deeds but other counties from which Macon County was formed will follow.

Houston County was created from Creek Indian land in 1821 using the land lottery system and became Georgia's fifty-first county. It was named for John Houston who served as Governor of Georgia from 1776 to 1784. The name (unlike that of Sam Houston or Houston, Texas) is pronounced House-ton. Perry is the county seat.

The land lottery system sectioned Houston County into 16 Districts (1 thru 16) with lots of 202½ acres. A year later (1822) Crawford County was formed from Districts 1, 2, 7, 12, the west portions of 3 and 6, and northwest portion of 8 of Houston. The same year (1822) Bibb County was formed from the east portions of Districts 3 and 6 of Houston plus other districts of Monroe, Jones & Twiggs. In 1824 District 16 and the western portion of 1 of Crawford (original Houston) were lost to Upson County. In 1828 the southeast half of District 12 was lost to Pulaski County and in 1837 Macon County was formed from District 15 and from the remaining portion of the 8th of Houston plus other districts of Marion County. In 1870 the western portion of District 14 and the southwest portion of 9 of Houston were lost to Macon County. In 1924 Peach County was formed from parts of District 5, 6, 9, and 10 of Houston and the northeast part of District 8 of Macon County (original Houston).

To supplement the fine work Mrs. Campbell has done, the undersigned as Book Editor, has added those persons listed in 1821 Land Lottery, Fraction Books F, H, K, & N. I have also added hand drawn maps. One shows the original 1821 boundaries of Houston County and the 16 districts as shown in Hall's Original County Map of Georgia. Other maps were hand drawn for each district showing the original and present land lots with present county lines. We hope these prove very beneficial in pinpointing the location where an ancestor owned property and may have lived. Also added as a supplement is a listing by District, Land Lots, Deed Book & Page, Current County Location plus 1821 LL Grantee (Name & Residence), that appear in Deed Book G.

Be aware that many fortunate drawers in the Land Lottery system did not immediately apply and pay for their certificates. Some of the land was not very desirable for cultivation and if they had no prospects of a buyer it was left unclaimed. A State Law was finally passed that set a deadline to apply and on failure to do so the land would revert and be granted to someone else. This brought on a flurry of claims in the late 1830's and in 1845 and 1846 another flurry of new grants. Also be aware that a land owner paid his poll tax and real property tax in his county of residence. The Tax Digest for county of residence would show all the land he owned in different counties by District and Lot number. The only way the owner's name would appear in the counties of non-residence would be if he had an Agent, Guardian, Trustee, etc living there.

Also be aware that a deed on a land lot drawn in the lottery system will not appear on deed books until the drawer or heir has paid for and received his certificate and subsequently deeded the land to another party. This could be many years later on the settlement of his estate.

Mrs. Campbell typed her abstractions as she read the deed pages therefore a name may be spelled several different ways. In preparing the Index, the undersigned used the most predominant or frequently used spelling while cross comparing names with other state and county records.

As stated by Mrs. Campbell, she used the 1821 Land Lottery book by Mr. Lucas. Unfortunately this book was a secondary source with many omissions which led to her statements, "Not found by me in Land Lottery Book" and "Fractional Lots not contained in Land Lottery Book". The listing found at the Houston County courthouse was prepared in Surveyor-General's Office, Secretary of State of Georgia and is an authentic and complete list for those who drew full 202½ acre lots. Fractional Lots for Houston County were contained in a Fractional

Grant Index Book 1805-1827 and certificates can be found in 1820-1821 Fractions Book's F, H, K, and N. Fraudulent draws for Houston County are contained in 1820, 1821, 1827 Land Lotteries, Book B. Reverted land is contained in 1821, 1827, 1832 Land Lotteries, Fraudulent Reverted Land Book A. All of these records are now available on microfilm (15 rolls) in the Genealogical & Historical Room, Washington Memorial Library, Macon, GA. I therefore corrected and/or added the appropriate primary source for fractional lots.

Within the contents of Deed Book G, were several deeds which stated original thirteenth district now twelfth district. We don't know the source of this confusion but one in Deed Book E referred to an old survey. This was apparently one incorrectly copied as there was no change to the numbering and/or lines between of land lots and/or districts from original grants.

Last but not least, we wish to thank the trustees of the R.J. TAYLOR, Jr., Foundation, who awarded our society a grant to assist in the various non-labor costs of compiling this publication and the printers cost. The Foundation also absorbed the expense for printing some thirty-four additional copies which will be distributed to various libraries within the United States.

A handwritten signature in cursive script, reading "William R. Henry". The signature is written in dark ink and is positioned above the printed name and title.

NOTE ***

[This deed gives the Lot No. as "and Number and fifty five in the sixth

Since Lots 209 & 240 in the 9th & 254 in the 6th were all three sold to
William Pinkard in Deed Book "F" - I think that the Lots in this deed
should be the same BUT there seems to be an error in recording the No.]

CENTRAL GEORGIA GENEALOGICAL SOCIETY, INC.
POST OFFICE BOX 2024
WARNER ROBINS, GEORGIA 31099-2024

Non-Profit
Tax Exempt
Org. GA

ORGANIZATION: The CENTRAL GEORGIA GENEALOGICAL SOCIETY, Inc. was organized in October 1978 by James T. Martin of Warner Robins, Georgia. In February 1981 the Society was incorporated as a non-profit organization under the law of the State of Georgia. The U.S. Internal Revenue Service has determined that the society is a tax-exemption organization under Section 501(c)(3), U.S. Internal Revenue Code of 1954. The Society is governed by a Board of Directors consisting of the elected and appointed officers and six elected Directors.

AREA: The Society's geographical area of primary interest consists of twenty-seven contiguous counties located in central Georgia. They are: BALDWIN, BIBB, BLECKLEY, CRAWFORD, CRISP, DODGE, DOOLY, HOUSTON, JOHNSON, JONES, LAMAR, LAURENS, MACON, MONROE, MONTGOMERY, PEACH, PIKE, PULASKI, TAYLOR, TELFAIR, TREUTLEN, TWIGGS, UPSON, WASHINGTON, WHEELER, WILCOX and WILKINSON.

PURPOSE: The purposes for which the corporation is organized are:

To collect, preserve and disseminate knowledge and information with reference to genealogical and related historical, biographical and heraldic data;

To inculcate and promote interest in research in these fields;

To stimulate and provide instruction in the use of efficient methods and the adherence to principles of accuracy and thoroughness in research;

To champion ethical standards and to discourage and oppose incompetent and disreputable practices or researchers;

To foster careful documentation and otherwise promote scholarly writing;

To issue publications, and

To promote the collection and the preservation of local records which are of genealogical or historical value.

MEMBERSHIP: Membership in the Society is open to any person interested in promoting the objectives stated above. Annual dues for 1994 are: \$20.00 for individual membership; \$25.00 for family membership (husband and wife, or two related persons in same household).

TRAINING: At least twice each year the Society conducts classes for beginner genealogists. These classes are free for members in good standing.

WORKSHOP: The Society plans to hold an all day workshop once each year, complete with exhibits, for members and the public. The registration fee will be set to cover the Society's cost and may vary from year to year, depending upon prices charged for food, meeting facilities, speaker fees, etc.

PROJECTS: The Society undertakes special projects for preservation of genealogical and historical information, such as: microfilming old newspapers, abstracting and publishing county court records, federal census records, cemetery records, etc.

PUBLICATIONS: The Society publishes a monthly NEWSLETTER and a QUARTERLY. The QUARTERLY is published four times per year as number 1 thru 4 and is mailed to all members in good standing. The annual volume number represents the years in existence. Many other societies, who are members, receive our QUARTERLY. QUERIES, from members only, are published in the QUARTERLY free of charge. There is no limit as to the number of queries which a member may submit. BOOK REVIEWS are published when a copy of the book has been received by the Society. After review these books are donated to the Genealogical and Historical Room, Washington Memorial

Library, Macon, GA., whose holdings are one of the largest in the southeast. Members are encourage to submit ARTICLES FOR PUBLICATION in the QUARTERLY, and extra long articles may be serialized. The QUARTERLY is not copyrighted and anyone is welcome to make proper use of the contents; however, the use of articles quoted from other published sources is prohibited without permission from the copyright holder. Appropriate credit will be appreciated. The QUARTERLY is not sold by subscription. Current and back issues may be purchased from the Society when available. The Society welcomes the opportunity to publish FAMILY PEDIGREE CHARTS for members. Minimum coverage of four generations is required. Our computer designed charts provided for as much information on the fifth generation as the second, third and fourth - most charts provide much less. Give us as much complete information as possible on available forms and separate paper.

MEETINGS: The Society holds regular monthly meetings with planned programs. These meetings are currently held at the Flint Electric Building, 1600 Elberta Road, Warner Robins, Georgia at 7pm on the third Thursday of each month. In addition to the program, time permitting, a question and answer session is usually conducted for the benefit of members who have a problem with their research, or who has found a better way for accomplishing their work. Visitors and guest are always welcome to attend regular meetings of the Society. Our current membership covers many states and we invite you to join our Society. For a membership application write to the Corresponding Secretary at address shown in the heading above or call (912) 953-3114.
